

About Us

Based in Preston city centre, we've been around since 1994. We specialise in providing and then supporting industry recognised, leading edge computer systems to Lancashire's SME businesses.

Helpdesk

We have an experienced team of highly skilled computer engineers; specialists in looking after the IT of small to medium sized businesses. Whether it is coming to your premises to do repairs or screen sharing with your staff showing them how to get the best from our technologies, our focus is to ensure your business gets the most from it's IT; zero downtime, return on investment and "hassle free" computer systems for you and your staff.

Experience, Knowledge and Expertise

Because we've been doing this for 25 years, there isn't much we don't know about computer systems in a small to medium sized business environment. Whether it's consultancy advice you are after about the correct direction of travel for your IT, firewall configuration, help choosing cloud services and cyber security, right through to selecting the right tablet, PC, laptop or printer - we are extremely well placed to advise you. But we aren't just IT experts. Customer service is our top priority ensuring we provide solutions that deliver practical real world benefits for our clients and their staff.

Why Us - Three Reasons

1. Friendly, jargon free IT support from our helpdesk in Preston with loads of happy customers throughout Lancashire.
2. We only do proven up-to-date technologies based on cost effective cloud solutions that deliver reliable, practical IT for our SME clients.
3. Looking for experienced, knowledgeable advice? We've been providing SME consultancy since 1994. So across almost all sectors, there's very little we've not seen or done already.
